PROFESSIONAL SUMMARY

Full Stack Developer with hands-on expertise in MERN stack, React Native, and AI integration. Proficient in MCP Servers, LLM integration, and building scalable applications.

TECHNICAL SKILLS

Programming Languages: C, C++, Java, Python, PHP, JavaScript (ES6+)

Frontend Technologies: React.js, React Native, Redux, Redux Saga, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend & Databases: Node.js, Express.js, Spring Boot, MongoDB, MySQL, PostgreSQL, Neo4j

AI & Advanced Technologies: MCP Servers, LLM Integration, AI Application Development

Architecture & Tools: REST APIs, Microservices, MVC Architecture, Git, GitHub, Visual Studio Code, npm

KEY PROJECTS

AI Resume Analyzer • Full Stack MERN

- Developed a full-stack web application where users can upload resumes and receive AI-based analysis with scoring and improvement suggestions
- Implemented JWT-based authentication with secure password hashing using bcrypt
- Built RESTful APIs with Node.js/Express for resume text extraction and analysis processing
- Designed MongoDB schema for storing user data, resumes, and analysis reports
- Created React frontend for intuitive resume upload, analysis results, and report viewing
- Implemented file upload handling, text processing, and score calculation algorithms

Online Book Shopping Center • Full Stack E-Commerce MERN

- Designed and built full-featured online bookstore with secure authentication, product catalog, shopping cart, and order management
- Implemented Redux and Redux Saga for complex state management and asynchronous API calls
- Built RESTful APIs with Node.js/Express, MongoDB persistence, and responsive React UI for cross-device compatibility

Scaffold Generator • Project Boilerplate Tool

- Created automated project generator allowing users to select features and frameworks to reduce setup time and boilerplate code

ADDITIONAL PROJECTS

Expense Tracker • Personal Finance React App

- Built personal finance application with expense logging, categorization, and real-time visualization using React.js and Local Storage

Notes Application • Desktop Notes App

- Developed desktop notes application in Java with file I/O operations, note creation/editing, and persistent storage capabilities

EDUCATION

Master of Computer Applications (MCA) • Aravali Institute of Technical Studies (AITS), Udaipur • 2023-Present

Bachelor of Science - Computer Science • MLSU Science College, Udaipur • Completed

CORE COMPETENCIES

- Full-stack web development with MERN stack • Mobile development with React Native • Advanced state management (Redux/Redux Saga) • LLM integration and AI application development • MCP Servers • REST API design and development
- File upload handling • Responsive UI design and optimization • Data Structures & Algorithms • Cross-platform development
